

Making College Affordable

November 29, 2010

RE: National College Planners

Jason worked closely with my son, who recently transferred to a four year university. Jason was very patient while mentoring him and guided him towards the right school. NCP is a wonderful company that helps high school and transfer students to choose the right college and major. They have the tools and the knowledge that can help both the student and the parents through this challenging and stressful time.

In addition, they did an amazing job in helping us get the aid that we needed to make the college experience less stressful financially. With their help we were able to get \$18,000 in student loans and grants per year which will amount to over 54,000 in aid by the time he graduates. Without this aid my son would not have been able to transfer this soon.

Our son is now attending University of San Diego; a great university! And-- on a side note, they were very helpful in regards to my daughter who is now attending her masters program at Pepperdine University. Without the help of NCP, USD and Pepperdine would not have been options for our son or our daughter. I already recommended another family to NCP and will continue to support this company. Many thanks again.

Best regards,

Jordana Adler
