

Making College Affordable

## Testimonials

### A few words from our past and current clients.

Dear Jason and NCP staff,

I can't believe my Brigitte is going off to college already! I expected this process to be extremely difficult and long but thanks to your excellent services it turned out to be stress free. Before I met you, I had a lot of questions and concerns about the college and financial aid process; questions that you were able to answer well and in detail.

Not only did you do a great job in handling all the forms and applications, but you provided that support that my daughter needed. As you know, my daughter can be easily distracted and you were there to give her a little push and to encourage her to work hard. Thanks to her hard work she was accepted to the University of La Verne. Now she will be able to get a great education for almost no money out of our pockets!

The financial aid award we received could not have been any better. I am stunned at the amount of grants that Brigitte received! She will be receiving *\$31,258 of free money each year* which will total to an amount of \$125,032 dollars, by the time she graduates. There really is so much money available for families out there if only they will allow professionals like you to help them.

Thank you so much for helping us get that money and for helping Brigitte find the perfect fit. I am certain that I have made a valuable investment in my daughter's life by taking advantage of your services. We could not have done this without you!

Truly Grateful,

Rocio Romero
